KNOW?**

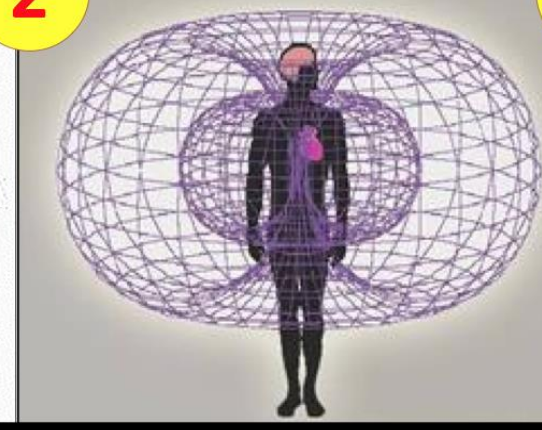

WHAT MAKES US UNWELL?

Months or years before symptoms appear, incoherence of Biophotons would have already occurred:

STAGE 1

Biophoton incoherence
& disruption occurs

STAGE 2

Abnormal electro magnetic
resonances occurs in the
body as a result

STAGE 3

Over time, the abnormal
electromagnetic resonances
causes harmful biochemical
changes in the body

STAGE 4

Gradually, symptoms
of these illnesses
appear in the body

LIFE

UNHEALTHY FOOD

OXYGEN DEFICIENCY – A ROOT CAUSE OF CANCER

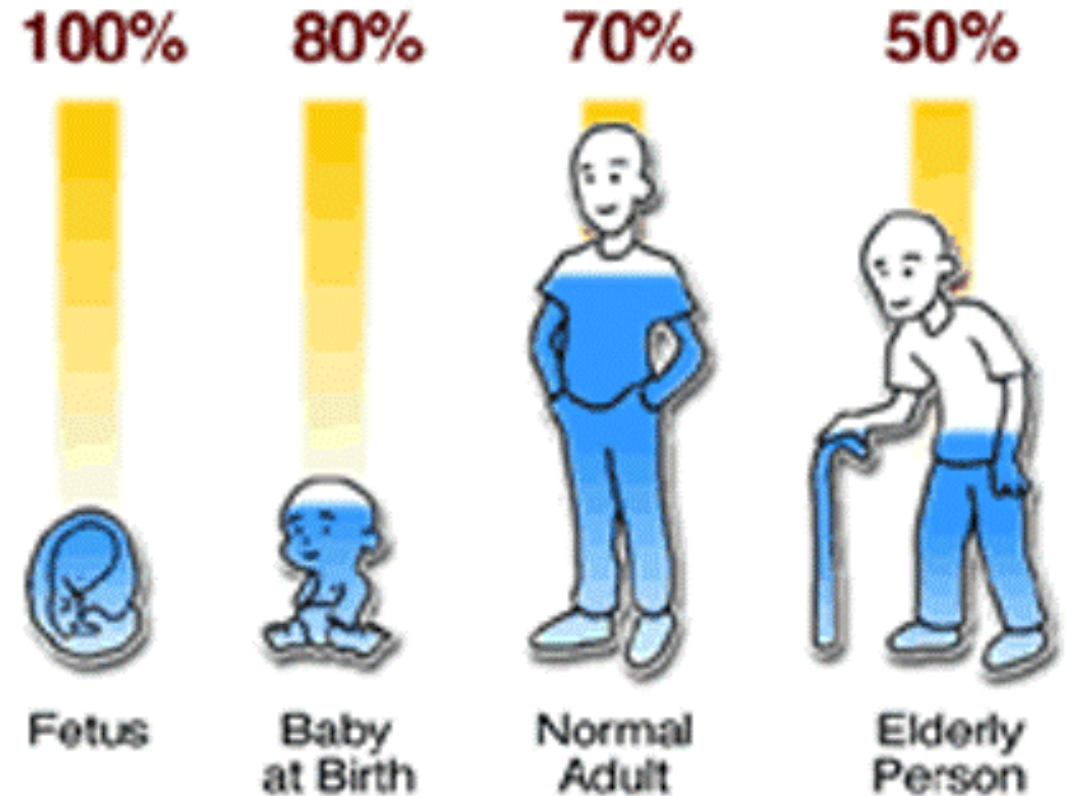

According to Dr. Otto H Warburg, all normal cells have an absolute requirement for oxygen, but cancer cells can live without oxygen. If you deprive a cell 35% of its oxygen for 48 hours, it may become cancerous, thus making oxygen deficiency a root cause of cancer. He also discovered that cancer cells are anaerobic, meaning they do not breathe oxygen and cannot survive in the presence of high levels of oxygen (as found in an alkaline state).

Discovered the importance of nutrient & clean environment (removal of metabolic waste) to sustain life.

Water is Life

Dr. Alexis Carrel, French scientist, had received the Nobel prize in medicine for keeping the cells of a chicken heart alive for **34 years**.
